

# Educational Studies

## Digital Technologies

The Bachelor of Arts in Educational Studies with a specialization in Digital Technologies prepares leader-experts with the flexibility to apply innovations in digital technology to a variety of educational settings. The specialization emphasizes real-world inquiry/problem-based learning, providing the best opportunities to develop job-ready skills in training and instruction using digital technology.

Our unique online format combines asynchronous learning with virtual classrooms to maximize flexibility, interaction, collaboration and community building.

### Program Highlights

**Online** program allows you to study from home and continue to work while you earn your degree.
