

# Educational Studies

## Lifelong Learning with Technology

The Lifelong Learning with Technology specialization develops expertise in adult learning and the specialized competencies in both formal and informal educational spaces. Our Educational Studies program prepares graduates for careers in learning and performance in a variety of sectors: industrial, commercial, not-for-profit and community.

Our unique online format combines asynchronous learning with virtual classrooms to maximize flexibility, interaction, collaboration and community building.

### Program Highlights

**Online** program allows you to study from home and continue to work while you earn your degree.

**Flexible** learning environment is designed to reach students anywhere in the world.

**Practical** curriculum leverages the potential of digital technology in lifelong learning.

**Engaging** videos, group tutorials, discussions and self-directed, problem-based learning.

You may pursue the BA in Educational Studies on a part-time or full-time basis.

Graduates with the required qualifications will receive priority status for acceptance into our Master of Education programs.
