

Educational Studies

Early Childhood Studies

The Early Childhood Studies specialization prepares an expert with the flexibility to apply innovations in digital technology and inquiry-based learning in working with young children in various educational settings. The specialization emphasizes real-world inquiry/problem-based learning providing the best opportunities to develop job-ready skills in training and instruction using digital technology in early childhood education fields.

Our unique online format combines asynchronous learning with virtual classrooms to maximize flexibility, interaction, collaboration and community building.

Program Highlights

Online program allows you to study from home and continue to work while you earn your degree.

Flexible learning environment is designed to reach students anywhere in the world.
